

CIGARETTE BURNS CINEMA PRESS RELEASE: THE LAST HOUSE ON THE LEFT '1972 RADIO SPOTS' FLEXI DISC

One Way Static is releasing a Limited FLEXI DISC exclusively for Cigarette Burns Cinema's UK screenings of The Last House On The Left taking place in September 2014.

Back in the day movie studios used to record promo spots on 7" records and send them to radio stations as advertising. This is an exact reproduction of these four original 1972 radio spots for The Last House On The Left (1972).

One year ago this flexi was included in our limited & sold out color vinyl edition of 'The Last House On The The Left'. There were 600 copies on clear foil. This is a one-off repress of 200 copies on transparent red foil, this time it comes with a custom made sleeve. Every copy will come hand-numbered out of /200.

This item will ONLY be available on the six 35mm Screenings taking place in September 2014. For more info, dates & locations please visit the CIGARETTE BURNS CINEMA website.
